

Synergi® Pivot Training

detecting risk

AFTER THIS CLASS YOU'LL BE ABLE TO SEE THE “BIG PICTURE” AND TRENDS IN YOUR ORGANISATION!

What is the total loss compared with the potential loss? What is the cost of all actions and how are those figures compared to the potential loss? Where should you do your next investment? Are you asked to produce statistical reports where you need to combine more than 3 parameters, show rolling average, work hours and general frequencies? Do you need to use excel and create pivot tables? This training course gives you in depth competence in how to really use the potential of Synergi®.

You will learn how to analyse the data that have been entered into Synergi®.

Basic Excel skills, Synergi® Search & Find and Synergi® Statistical Training are required.

CURRICULUM

- Advanced use of PivotTable and PivotChart in Excel
- Advanced use of formulas in Excel

Purpose

After the training you should be able to take out the full potential of statistics and trends using advanced Excel functionality.

TARGET GROUP

Users who will work with advanced statistics and trends of data registered in Synergi®
Basic Excel skills, Synergi® Search & Find and Synergi® Statistical Training are required.

Duration

1 day
